

APPLICATIONS

Eni Blasia ESB 220 is a premium lubricant formulated with biodegradable synthetic basestocks (esters) and is particularly recommended for lubrication of chains and tracks of earth-moving machineries.

Eni Blasia ESB 220 is also suitable for lubrication of gearbox in agricultural and construction machineries.

CUSTOMER ADVANTAGES

- Environmental protection ensured even in case of accidental soil pollution
- Good performances in a wide range of temperature thanks to a very high viscosity index value
- Long term performances ensured by a robust antioxidant additive protection
- Enhanced antirust protection
- Protection of lubricated components due to an effective antiwear additivation (FZG stage 12th passed)

SPECIFICATIONS & APPROVALS

- ISO-L-CKC
- ISO 12925-1 CKC
- DIN 51517 CLP
