

Eni Coro KSW 50 L

Eni Coro KSW 50 L is a waxy corrosion protection agent with high effectiveness.

Physical properties (typical values):

Coro KSW 50 L		Einheit	Prüfverfahren
Appearance	beige		
Density (15 °C)	810	kg/m ³	DIN 51 757
Viscosity (20°C)	30	mm ² /s	DIN 51 562
Flash point	58	°C	DIN 51 755
Salt spray chamber	>300	h	DIN 50 021 SS
Condensation water exchange climate	>50	Zyklen	DIN 50 017

Quality features:

- based on a low-odour, aromatic-free solvent.
- Forms a waxy, non-slip protective film
- high corrosion protection
- wax dispersion

Possible applications:

Eni Coro KSW 50 L is suitable for the long-term preservation of machines or materials that are exposed to the machines or materials and as transport or permanent corrosion protection. Can also be used as underbody protection, cavity preservative. Can be applied by spraying.

Notes:

The product should be stored at room temperature. Storage time min. 6 months.
The product is a water-polluting liquid.
For further information, please contact our application technology department. Find out about the range of seminars on the subject of cooling lubricants.
