

# Eni SDO 250

**4-stroke high-performance engine oil** for highly loaded motorcycles with wet and oil bath clutches.

## Characteristics (typical figures):

Eni SDO 250	Unit	20W-50	Test method
Kin. Viscosity	at 40°C	160	DIN 51 550
	at 100°C	1,2	
Viscosity index		121	DIN ISO 2909
Density at 15°C	g/ml	0,885	DIN 51 757
Flashpoint o. C.	°C	> 200	DIN ISO 2592
Pour point	°C	-30	DIN ISO 3016

## Properties and Performance:

**Eni SDO 250** is a multigrade engine oil based on highly refined mineral oils for the application highly loaded engines with wet and oil bath clutches.

The naturally high viscosity index ensures the excellent performance at the application under severe engine operation conditions.

This engine oil is compatible with all commonly used materials in the engine manufacturing.

## Applications:

**Eni SDO 250** is universally applicable due to the balanced formulation that also considers the current requirements of various vehicle manufacturers of different fields.
