

## APPLICATIONS

**Eni Antifreeze Bike S** is an amine, phosphate and nitrite free engine coolant based on ethylene glycol. It is a ready to use product for scooters and motorbikes cooling systems.

It contains a corrosion inhibitor package based on salts of organic acids (OAT) that delivers durable performances for prolonged change intervals.

## CUSTOMER ADVANTAGES

- Mainly addressed to satisfy the needs of motorcycles applications, **Eni Antifreeze Bike S** is one of the most modern radiator protection products on the market capable to fully meet also the performance requirements of passenger cars, heavy-duty vehicles, agriculture and earth-moving machineries, etc.
- It has long-term protection against corrosion for all materials used in the engine and radiator construction, such as cast iron, aluminium, copper and solder alloys as well as a good compatibility with hoses, seals or plastics.
- It contains carefully selected amine, nitrite and phosphate free inhibitors and is therefore environmentally friendly.
- This product can be used in those cases where it is required a product with a performance level ASTM D 4985

## SPECIFICATIONS

- CUNA NC 956-16 (ed. '12)
- ASTM D 3306
- AFNOR NFR 15-601
- JIS K 2234:2006

## CHARACTERISTICS

Properties	Method	Unit	Typical
Colour	-	-	pink
Density at 20°C	ASTM D 1122	kg/m <sup>3</sup>	1071
pH	ASTM D 1287	-	8.48
Boiling point	ASTM D 1120	°C	110
Freezing point	ASTM D 1177	°C	-41

## WARNINGS

- Mixture with other coolants is not advised.
- Please observe carefully manufacturer's specification on product.

## HANDLING INFORMATION

- The product must not be diluted with water before use.
