AUTOL BIOKETTOL 200

Blauer Engel
KWF tested

Biodegradable saw chain adhesive oil based on vegetable oil with vegetable adhesive additive for use in agriculture and forestry for lubrication of all common chainsaw brands.

Characteristics (typical figures):

Colour		light to dark yellow
Kin. viscosity at 40°C	mm ² /s	200
Density at 15°C	kg/m ³	920
Flash point o. C.	°C	> 250
Pourpoint	°C	< -20
Aging at 80°C	h	1000

AUTOL BIOKETTOL 200 offers particularly high lubrication and adhesion properties as well as very good anti-corrosion and anti-wear properties. Excellent viscosity behavior and special additives for Long-term resinification protection ensure optimal year-round use.

The particularly good lubrication behavior means less wear on the chain and lower blade temperatures. Due to the excellent adhesion properties, oil consumption can be significantly reduced in saws with dosing pumps.

AUTOL BIOKETTOL 200 is suitable for summer and winter application even under severest conditions.

When the motor saw is not in use the cutting fittings and oil pump should be cleaned.

Please observe the manufacturer's specifications when selecting products.
