

Eni E-Ribes

APPLICATIONS

Eni E-Ribes are high performance "food grade" oils, specially developed to meet the stringent requirements of gear lubrication used in the food and pharmaceutical industries.

Eni E-Ribes are formulated with a pharmaceutical white oil, reinforced with a special combination of anti-wear, anti-corrosion and EP additives.

Eni E-Ribes are recommended for the lubrication of gearboxes, plains and roller bearings with high loads in the food processing industries.

Eni E-Ribes 150 is also suitable for the lubrication of slideways and conveyor belts.

CUSTOMER ADVANTAGES

Eni E-Ribes are **NSF H1 approved** and **registered** lubricants recommended for use where an incidental contact with food can occur.

The use of **NSF H1** registered lubricants is the most effective solution to meet the request of the **HACCP** (Hazard Analysis and Critical Control Point) System.

Eni E-Ribes are formulated exclusively with additives listed in the **FDA Group 21 CFR 178.3570** and they are free of:

- genetically modified materials
- main allergens substances like nut oil, soya oil, dairy industry derivatives
- animal derived materials

Eni E-Ribes have the following properties and characteristics:

- excellent performance in applications working under zero degree or where high temperature are present
- outstanding anti-oxidant and antirust properties
- good cold behaviour
- extended relubrication intervals
- compatible with joints
- odourless and colourless

Eni E-Ribes are compatible with the elastomers normally used in food machinery lubrication systems.

Eni E-Ribes

SPECIFICATIONS

Eni E-Ribes are produced in a plant certified ISO 21469.

Eni E-Ribes meet the requirements of the following classifications/specifications:

DIN 51517-Parte 3 (CLP)

Eni E-Ribes are **NSF H1** registered, and the package reports the NSF symbol and registration number:

Eni E-Ribes 150: n° 170776 Eni E-Ribes 220: n° 170777

Eni E-Ribes is certified by **Instituto Halal**, licence number IH-1136/5.2/B/131:

Eni E-Ribes 150: IH-1136/5.2/B/131/5 Eni E-Ribes 220: IH-1136/5.2/B/131/6

CHARACTERISTICS (Typical Values)

| Eni E-Ribes | | 150 | 220 |
|------------------------------------|-------|------------|------------|
| | Unit | Value | Value |
| Colour | | Colourless | Colourless |
| Density at 15°C | g/cm³ | 0,873 | 0,873 |
| Viscosity at 40°C | mm²/s | 150 | 220 |
| Viscosity at 100°C | mm²/s | 15 | 20 |
| Viscosity index | - | 100 | 100 |
| Flash point COC | °C | 215 | 215 |
| Pour point | °C | -18 | -18 |
| 4 ball machine Ø scar (1min/80 kg) | mm | <0,60 | <0,60 |
| FZG (A/8.3/90) | | 12 | 12 |

NOTE

All "food grade" lubricants should be stored from other lubricants, chemical substances and foodstuffs and out of direct sunlight or other heat sources. Store between 0°C and +40°C.
